

WHY GREENER PASTURES™?

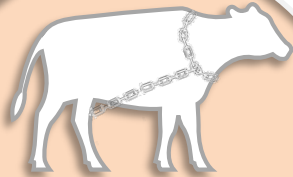

● CHALLENGE

Deforestation

Traceability

Farm Animal
Welfare Issues

Leather and Fashion Industries are being implicated in deforestation and farm animal welfare issues in Brazil and USA

What is the Solution?

...the Leather Working Group evaluates tanneries only on their ability to trace leather back to slaughterhouses, not back to farms...

The goal is to develop a clear plan to close the loopholes...

The Guardian

● CURRENT HIDE TRACEABILITY OVERVIEW

· Basic Traceability

· Advanced Traceability

LWG Requirement

Traceability to **Slaughterhouses**

LWG medal accredited tanneries meet this **Basic Requirement**

Huge Supply

**Traceability
Loophole**

Regenerative Hide

To **Farms** or **Ranches** by individual animal with increased **Animal Welfare** requirements

From **Regenerative Farms and Ranches**

Very **Limited Availability** and **Expensive**

Currently there is **No Industry Standard** or **Protocol** for traceability of cattle hides to source farms or ranches or for enhanced animal welfare requirements. That is the reason behind the development of ISA's **Greener Pastures™** program.

● SOLUTION

LWG
Requirement

Enhanced traceability to source, i.e. to **Farms or Ranches by Lot** with comprehensive **Animal Welfare** requirements

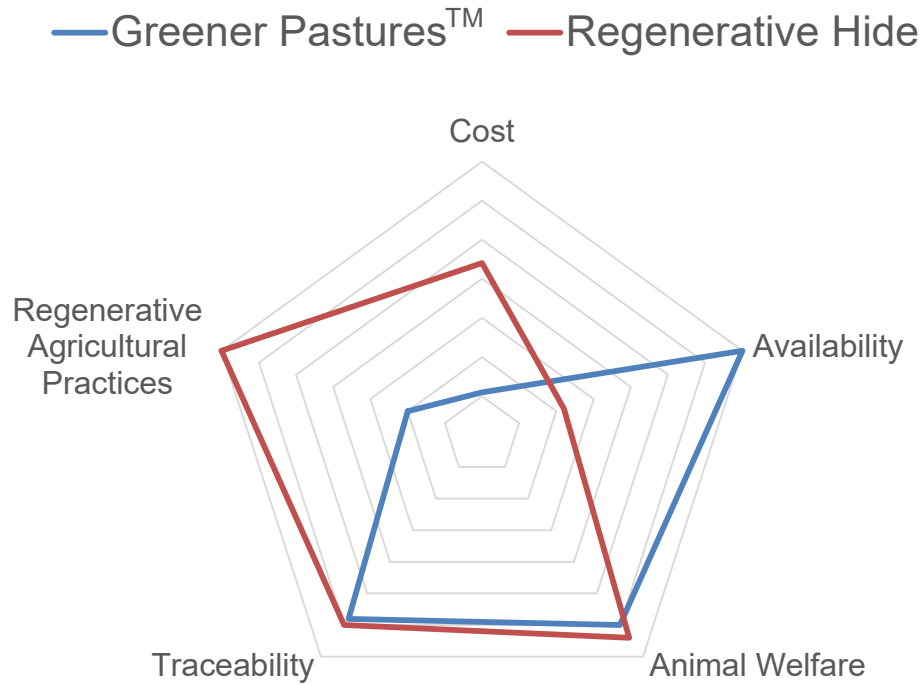

Good Availability of material to support large scale programs

Moderate **Price Premium**

Regenerative
Hide

Greener Pastures™ is our solution to close the traceability loophole.

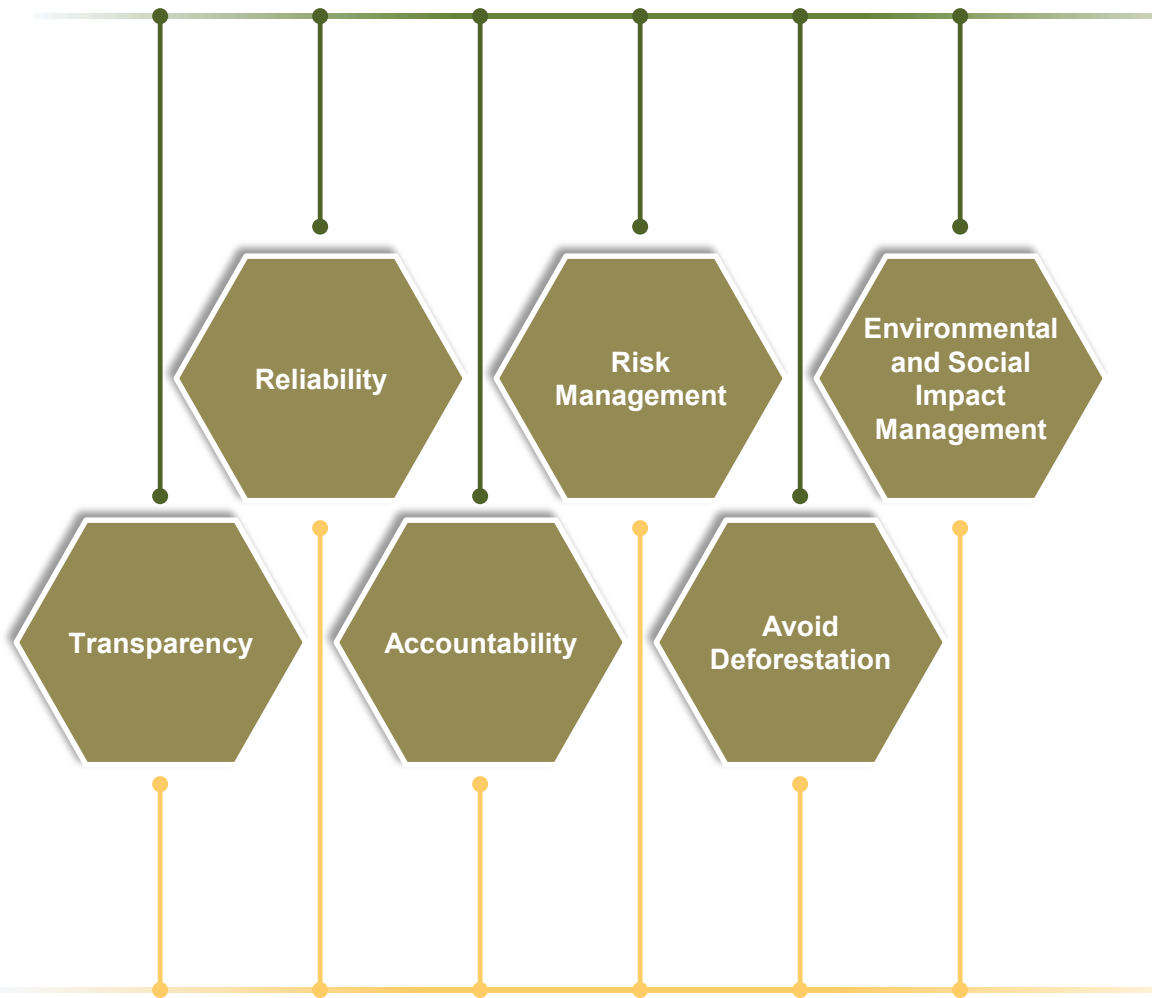

● WHAT WE OFFER

Greener Pastures™

**Affordable prices
and ample
availability**

● WHAT WE OFFER

Greener Pastures™

**Builds
sustainability
milestones and
elevates supply
chain
transparency**

Traceability and Animal Welfare Source Responsibly

LITE Sourcing
